DIAMOND SANDING / POLISH DISCS - These discs are made of a unique blend of diamond powders mixed with resins which is applied to a tough synthetic pressure sensitive adhesive (PSA) backing pad. Each mesh size diamond is a different color allowing easy identification of diamond size. The color is also an easy way to determine the condition of the pad. **AS LONG AS YOU HAVE COLOR, YOU HAVE DIAMONDS!!!** These discs provide a superior polish. **THEY ARE WHAT I USE!!!** These discs **MUST** be run **WET!!!!**
